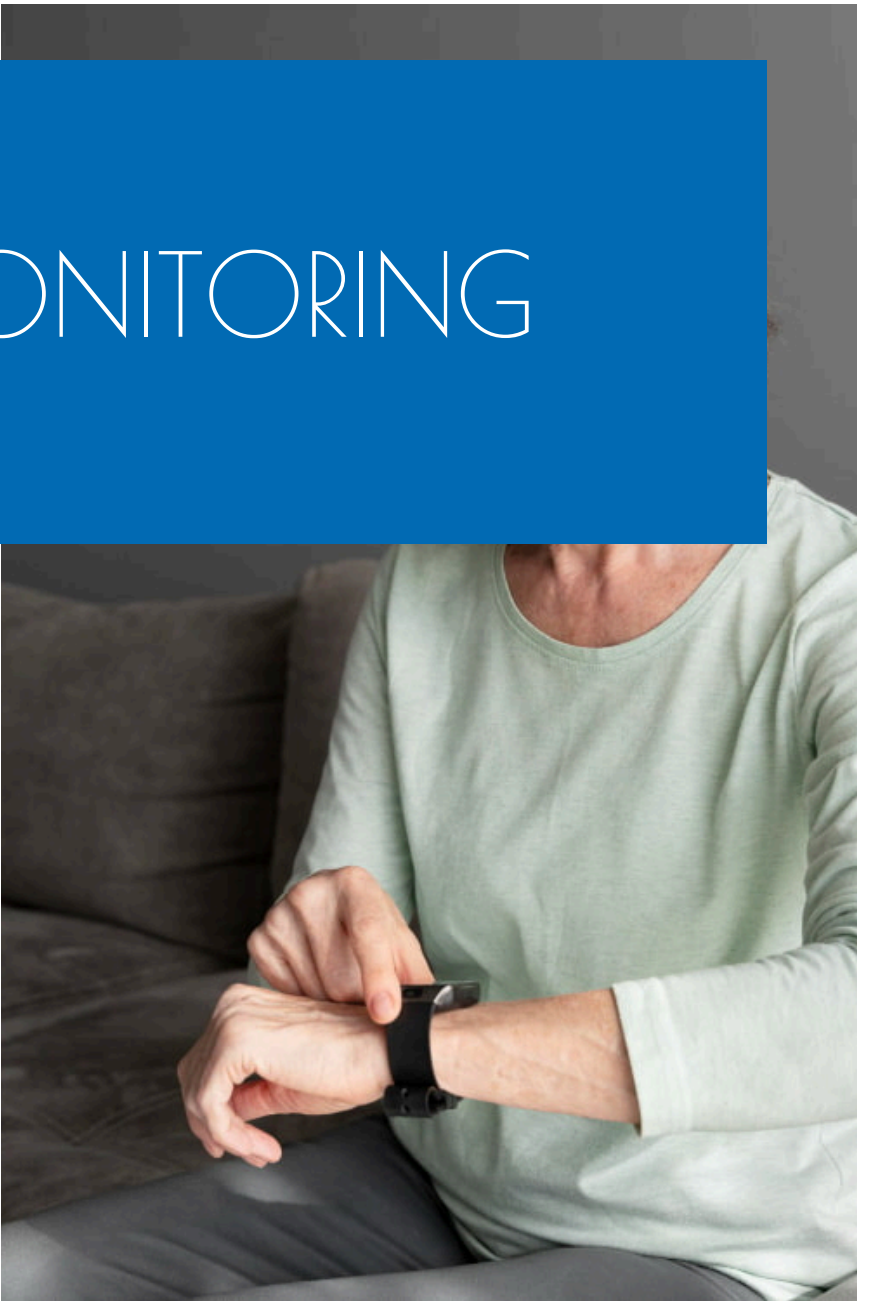
MONITORING



www.cerotek.it

Ediz. 1.1

iSensor

Smartwatch bluetooth that allows the automatic detection of: GLYCEMIA, SATURATION, BODY TEMEPRATURE, BLOOD PRESSURE, HEART-BEAT, FATS IN THE BLOOD

On the App, it will be possible to:

- set the minimum and maximum thresholds within wich the value must fall
- set the frequency with which the parameters should be detected
- indicate the chosen number to receive anomaly reports via SMS

The alarms for abnormal values will be available in real time on CentroStella

iSensor Pro

Smartwatch with SIM integrated that allows the authomatic detection of:

N.B THE MEASUREMENT RESULTS ARE FOR REFERENCE ONLY, NOT FOR ANY MEDICAL PURPOSES AND BASIS. PLEASE FOLLOW YOUR DOCTOR'S INSTRUCTIONS AND DO NOT RELY ON THE TEST RESULTS FOR SELF-DIAGNOSIS AND TREATMENT

SOS call in case of necessity toward the emergency numbers saved

Activation of alarm in case of fall with real time positioning.
