

Doktorbag

DOKTORBAG is the service offered in the TELEMEDICINE field.

It's a case through which is possible to monitor different vital parameters from home.

For Cerrotek, TELEMEDICINE means PREVENTION.

With DOKTORBAG is possible to analyze the trend of the different measurements with the activation of warnings in case of abnormal values.

In DOKTORBAG you will find:

HEALTH MONITOR

SCALES

SMARTWATCH

Through the HEALTH MONITOR, it will be possible to measure: BODY TEMPERATURE, SATURATION, BLOOD PRESSURE and ECG.

With the SCALES the WEIGHT and the level of HYDRATION of the body will be monitored.

Thanks to the SMARTWATCH, the GLYCEMIA will be checked.

All the devices are paired via bluetooth to the tablet supplied that, with given App, communicates with our managing software CentroStella.
