

# Management of Therapy

self-administration

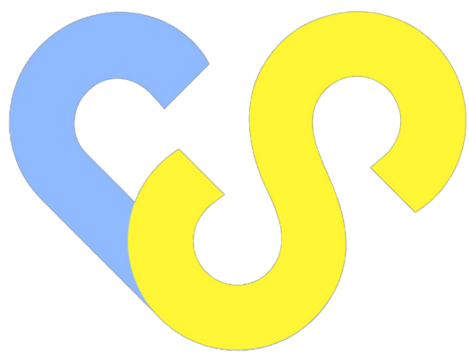

patent BIT28042

It fully responds to the  
recommendations number 7 and 12 of  
the Ministry of Health about errors  
during pharmacological therapy  
and for the medicines look alike/  
sound alike

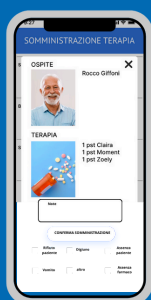

For each patient, one or more  
NFC Tag are given, to easily  
recognise the person and their  
therapy.

The use of the NFC Tag  
guarantee the administration of  
the RIGHT DOSE to the RIGHT  
PATIENT at the RIGHT TIME,  
following the 7G REGULATION .

On CentroStella, in the "therapy" section, the NAME, the PICTURE OF THE MEDICINES TO ADMINISTERATE, the DATE and the HOUR of the start of the treatment and the FREQUENCY of the administration need to be inserted,

After uploading the therapy of the person on CentroStella, it will be possible to pair the tag to the patient.

This way, by putting the smartphone with app installed closer to the tag, it will be possible to open the Right Therapy of the Right Person.

In case of missed administration, it will be necessary to indicate the reason within the ones listed.

To close the operation, the operator will have to click "confirm administration".
